

Canadian Cadet Organization Biathlon Championship Series

AIR RIFLE / RUN AND SHOOT SPECIFIC RULES – RCSU(A)

Section 3

Rule	Original	Amendment / Clarification
ALL	Any reference to skiing or ski trails	All references to skiing and ski trails are understood to mean running and running trails.
ALL	Any reference to dimensions or measurements given throughout	Dimensions or measurements are subject to scaling and adjustment to account for the differences between an air rifle run and shoot event and a skiing biathlon with .22 rifles. Unless explicitly stated in this document, any dimension or measurement in the rulebook is subject to adjustment. Any adjustments pertinent to the competition (trail length, penalty loop length, etc.) must be communicated in the competition invitation.
1.3.10 Competition Specifications	As per Table 1	Stage 2 – No change. Stage 3 – Race specifications to be communicated in the Invitation for the applicable Provincial Championship
1.4.8.1.3.c Adult Coaches	... “Before moving the rifle the coach must ensure the bolt is to the rear, the magazine is removed and the rifle is clear and he must keep the muzzle pointing up.” ...	... “Before moving the rifle the coach must ensure the bolt is to the rear, the pump lever is opened, and the rifle is clear and he must keep the muzzle pointing up.” ... The remainder of the rule remains unchanged.
1.8.2.1 On the Shooting Range	Assistance prohibited within 10m of the shooting range.	No change to this measurement. Rule is still applicable exactly as written.

1.8.2.2 On the Course	Pacing prohibited within 100m of range or start/finish area, and permitted up to a maximum distance of 50m on other sections of the course.	No change to this measurement. Rule is still applicable exactly as written.
3.3.12 Ski Test Area		Not applicable
3.4.2.1 Shooting Distance	The distance between the front edge of the shooting ramp and the line of targets must be 50 m +/- 1 m (Smallbore) and 10 m +/- 0.2 m (Air Rifle).	No change. This measurement is not subject to adjustment.
3.4.3.1 Shooting Lanes	Every shooting lane must be at least 2.75 m but not more than 3 m wide.	Every shooting lane must be at least 1.25 m but not more than 1.5 m wide. Marking may be using any appropriate means (flagging tape, paint, etc.) T-Posts are recommended, but not required.
4.2.3.c Finish Inspection and Rifle Check	that the rifle trigger resistance is at least 0.5 kg	that the rifle trigger resistance is at least 3.5 lbs (1.59 kg).
8.2.2.2.c Patrol Race	... "The competitor who is shooting on this set of targets must first open the bolt and lower their rifle." ...	No change. The only requirements are to open the bolt and lower the rifle. Since the magazine would not be removed, and safety catch would not be engaged, there is no requirement to open the pump lever or engage the safety catch. Entirety of the rule to be interpreted / applied exactly as written.
8.2.2.2.e Patrol Race	Missed shot penalty is a 150m penalty loop (other than final bout)	Penalty may vary – to be communicated in the competition invitation.
8.4.2 Use of a magazine		Not applicable. Magazines (5 round clip) are prohibited. Use of a 5 round clip would result in a 10 minute penalty (5.11.c).
8.5.2 Loading and Unloading	... "To insert a magazine containing bullets into the rifle is part of the loading procedure."...	Pumping of the rifle is part of the loading procedure. In addition to maintaining control, rifles must also be unloaded during pumping, with the bolt fully to the rear. Pellets may only be inserted, and bolt closed, after pumping. Failure to load in

		the correct sequence will result in a 2 minute penalty per occurrence. Remainder of the rule remains unchanged.
8.5.2.1 Safety Check on the Range after Shooting	Rifles must be unloaded after each shooting bout – that is, no round may be left in the chamber or in the inserted magazine. However, competitors are permitted to leave the empty magazine in the rifle after the last shot. At the end of training, competitors must perform a safety check before leaving the shooting range by opening the bolt and removing the inserted magazine, with the barrel pointed toward the target or upward. Competitors must also remove all ammunition from both the stock and the magazines before leaving the shooting range.	Rifles must be unloaded after each shooting bout – that is, no round may be left in the chamber and bolt must be opened. However, competitors are permitted to leave the pump lever closed after the last shot. At the end of training, competitors must perform a safety check before leaving the shooting range by performing a dryfire, followed by opening the bolt and pump lever, with the barrel pointed toward the target or upward. Competitors must also remove all ammunition from both the stock and the magazines before leaving the shooting range. (Note that dryfire portion only applies <u>at the end of training</u>, ie, not following each competition bout.)

Section 5

Rule	Original	Amendment / Clarification
5.5.e Two Minute Penalty	During the Patrol competition, a competitor cross fires on the other set of targets assigned to the patrol before hitting all five targets in his lane, or before their team member has opened their bolt and lowered their rifle;	No Change. Based on 8.2.2.2.c being implemented in the same manner, no penalty will be imposed should the pump lever not be opened.
5.5.l Two Minute Penalty	No rule previously – new rule added	Improper air rifle loading procedure (pumping with bolt closed) – 2 minute penalty

Annex C – Range Procedures

Rule	Original	Amendment / Clarification
1.1 Procedures	...“After firing the last shot of each bout the competitor must open the action and place the rifle on the firing point mat,”...	...“After firing the last shot of each bout the competitor must open the bolt and place the rifle on the firing point mat,”... The implication is that only the bolt is required to be opened, and not the pump lever. Remainder of the rule remains unchanged
1.2 Penalty	“If the rifle is left with the action not opened, each violation shall result in a two minutes penalty...”	“If the rifle is left with the bolt not opened, each violation shall result in a two minutes penalty...” No penalty applied for not opening pump lever.
1.4 Safety Check	“The competitor’s coach is responsible for performing the safety check on the rifle before it is moved to another location – by confirming that there is no inserted magazine, that the action has been opened, and that there is no round in the chamber.”	“The competitor’s coach is responsible for performing the safety check on the rifle before it is moved to another location – by confirming that the pump lever is open , that the bolt has been opened, and that there is no round in the chamber.”
2.1 Rack to Rack Carry Procedures		Not applicable.
2.2.2	For each shooting bout, the coach will provide the competitor with a full magazine along with the rifle. Magazines may be provided on the rifle’s magazine rail (if equipped) for either standing or prone shooting, placed on the mat for prone shooting or handed to the athlete for standing shooting.	For each shooting bout, the coach will provide the competitor with a box containing the required number of pellets . Magazines may be provided on the rifle’s magazine rail (if equipped) for either standing or prone shooting, placed on the mat for prone shooting or handed to the athlete for standing shooting.
2.2.3 Prone Shooting	...“After firing the last shot of each bout the competitor must open the action and place the rifle on the firing point mat, with the barrel pointing	...“After firing the last shot of each bout the competitor must open the bolt and place the rifle on the firing point mat, with the barrel pointing

	toward the targets, and then exit the firing point and the range in the normal manner.”	toward the targets, and then exit the firing point and the range in the normal manner.” The implication is that only the bolt is required to be opened, and not the pump lever. Remainder of the rule remains unchanged
2.2.4.2 Standing Shooting	... “After firing the last shot of each bout the competitor must perform a safety check, leave the action open and wait for his / her coach.” ...	... “After firing the last shot of each bout the competitor must perform a safety check, leave the bolt open and wait for his / her coach.” ...
2.3.1 Penalties	Any violation during the above procedures will lead to a 2-minute penalty imposed by the Competition Jury.	No change. This implies that penalties will be applied for not opening the bolt, however a competitor not opening the pump lever shall not be penalized.
